Version 1.0 04/22

Architectural and Décor Films

Wall Covering Solutions
Ideal for applications including retail and leisure, exhibition and home décor, enhancing the opportunities available.

Textured Finish
MD-WA is available with a choice of finish, designed to achieve an attractive appearance without lamination.

MetaScape® Air Release
Next generation micro air release adhesive system for faster, trouble-free applications of larger graphics onto surfaces.

Excellent Opacity
Metamark 'WallArt' range achieves a high level of opacity, and makes for no show-through on overlap joins.

Vibrant Graphics
Offering a highly vibrant print image, retaining greater intensity of the colours, producing a striking finished result.

Textured One-part System Self-Adhesive Products

Architectural and Décor Films

Metamark architectural and décor films help you to deliver digitally printable, highly marketable wall and floor décor, that are both attractive and durable, and ensure ease of installation.

Metamark décor films provide opportunities to win new customers in domestic, retail, industrial and other rapidly growing markets.

You can trust Metamark materials to perform. Metamark media is highly regarded for exceptional print performance, to produce vibrant graphics. Our film and adhesive specifications are developed from our experience in applications.

New finishes and technical constructions put a versatile range of aesthetic options at your disposal.

MD-WA WallArt

Metamark 'WallArt' offers an ideal solution for printable wall coverings, including retail, exhibition and home décor.

- 150mic textured polymeric calendered PVC
- MetaScape® air escape adhesive system for ease of application
- High level of opacity for no show-through
- Textured weave finish provides abrasion resistance and anti-scuff

MD-WAL WallArt Lite

Metamark 'WallArt' Lite enhances the opportunities available for printable wall décor, including retail, leisure and exhibitions.

- 170mic monomeric calendered PVC, solvent-based adhesive
- Low reflection textured finish
- Anti-scuff, abrasion resistant
- High opacity film for no show-through

MD-WR WallArt [Repositionable]

Metamark 'WallArt' Repositionable offers an easy to install and remove, self-adhesive printable décor wall coverings.

- 150mic textured polymeric calendered PVC
- MetaScape® air escape adhesive system for ease of application
- Create temporary drops, clean removal on sound sealed surfaces
- Excellent opacity and textured weave anti-scuff finish

MD-TX3 WallTex

Metamark 'WallTex' self-adhesive printable fabric offers a clean, easy to apply alternative to traditional wall coverings.

- 190mic polyester woven fabric
- Clean removable, grey blockout solvent-free adhesive
- Environmentally safe and biodegradable over time
- PVC, VOC and heavy metal free

Performance you can trust

MD Class Print Quality

Providing an outstanding print performance, with vibrant tones and wide colour gamut.

Abrasion Resistant

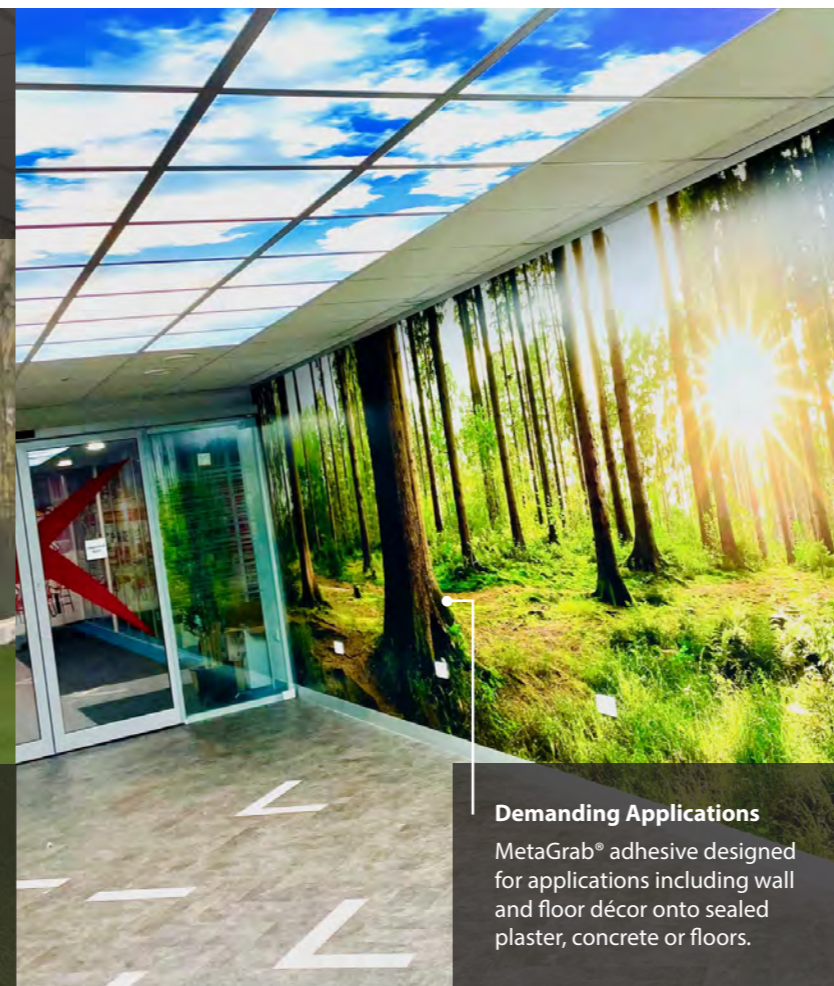

When overlaminated with MetaGuard, it gives a highly durable décor covering.

Adhesive Technologies

Available with the choice of adhesive technologies, chose your perfect match for ease of application.

Self-Adhesive Films with Laminates

Excellence Through Innovation

Demanding Applications

MetaGrab® adhesive designed for applications including wall and floor décor onto sealed plaster, concrete or floors.

MetaGrab® Self-Adhesive Films

MetaGrab® Adhesive

This adhesive technology is ultra high tack. With the highest level of internal strength and cohesivity to even the most challenging surfaces.

Ideal Solution

MDU has been developed to offer an ideal solution for wall wrap applications. Suitable for sealed block and brick, and rough, textured surfaces.

MD5 High Performance Media

For décor, wall coverings and furniture graphics with the most outstanding print. Overlamine with MG-700 for matched system.

- 70mic polymeric calendered vinyl, solvent-based adhesive
- Bright 'white point' and distinctive coating technology
- Engineered to give long term dimensional stability
- Choice of adhesive technology systems available

MD3 Intermediate Performance Media

Solution for intermediate printed wall coverings and furniture applications. Overlamine with MG-300 for durable décor coverings.

- 70mic calendered vinyl, solvent-based adhesive
- Offers very high level of performance for medium term applications
- Highly versatile print media with wide colour gamut
- Available with a choice of adhesive systems

MD5-UB MetaGrab® [High Performance Media]

Featuring our MetaGrab® advanced ultra high tack adhesive, developed for walls, floors, sealed plaster and concrete.

- 70mic polymeric calendered vinyl, MetaGrab® ultra tack adhesive
- Applications include rough, textured and difficult surfaces
- Part of the MD5 range, with a unique coating technology
- Superior opacity with grey pigmented adhesive

MDP-UB MetaGrab® [Promotional Grade Media]

Delivering extra reassurance with ultra tack adhesive for sealed rough, textured and difficult to stick to surfaces.

- 100mic monomeric vinyl, MetaGrab® ultra tack adhesive
- Suitable for walls, floors and textured low energy plastics
- Grey opaque adhesive, for superior opacity
- Match with MG-300 or MG-F to provide a durable graphic

MG-700 High Performance Overlamine

Providing a matched system to Metamark MD5 series. Giving a durable finish and confidence in high traffic areas.

- 70mic polymeric calendered PVC, solvent-based adhesive
- Excellent dimensional stability
- Enhances depth of colour and easily wipeable finish
- Increased resistance to abrasion with UV inhibitors

MG-300 Intermediate Overlamine

Providing a matched system to Metamark MD3 series. Creating a durable protection on wall coverings.

- 70mic calendered PVC, solvent-based adhesive
- Offering clean and easily wipeable finish
- Enhances depth of colour in the print
- Abrasion resistance and contains UV stabilisers

MDU MetaGrab® [Conformable Wall Wrap]

Offering an ultra high tack adhesive, an ideal solution for sealed block and brick, and rough, textured surfaces.

- 100mic polymeric vinyl, MetaGrab® ultra tack adhesive
- Highest level of internal strength and cohesivity
- Designed for difficult to stick to surfaces
- Grey pigmented adhesive providing superior opacity

Performance you can trust

Minimal Shrinkage

Metamark 'WallPapers' non-woven structure gives minimal shrinkage to allow invisible joints to be sliced.

Sustainable

PVC free and FSC® certified. Metamark 'WallPapers' require no lamination and are water resistant.

WallPapers

Anti-Slip Finish

Metamark floor products are tested and rated to give assurance when choosing the best product for your application.

Floor Products

MD-W200 Pasteable Wallpaper

For permanent printable wall coverings using original paste the wall techniques.

- 290mic non-woven paper
- PVC free and FSC® certified
- Smooth satin finish with a nature paper feel
- Minimal shrinkage allowing invisible joints to be spliced

MD-W300 Pre Pasted Wallpaper

For permanent wall coverings with pre-pasted construction, water activated backing offering clean easy handling solution.

- 330mic non-woven paper, permanent water-based paste
- PVC free and FSC® certified
- Smooth satin finish and a natural paper feel
- Minimal shrinkage and water resistant

MD-MW-R10 MetaWalk R10

A textured product for temporary floor graphics, applied to either smooth indoor floors in good condition or short pile carpets.

- 150mic polymeric calendered PVC, MetaScape® adhesive
- Anti-slip finish, R10 rated. Certification BS 7976-2:2002 (Slider 96)
- One part system designed for dry areas, for use without lamination
- Can withstand regular levels of foot traffic

MG-F FloorArt Overlaminates

MetaGuard 'FloorArt' is a textured overlaminates offering décor and promotional opportunities for short term indoor use.

- 100mic monomeric calendered PVC, solvent-based adhesive
- Anti-slip finish, R9 rated. Certification BS 7976-2:2002 (Slider 96)
- Matt embossed film, with easy to clean finish
- Gives durable protection over Metamark digital films
