

KERNOW **JET**®

KlearWipe™

KERNOW COATINGS

TOUGHEST LONG-TERM DRY-ERASE LAMINATION FILM

Usage	To be applied on top of any smooth surface (printed or not)
Printability	As a perfectly erasable film, KlearWipe™ is not printable!
Colour	Transparent
Adhesive	Clear acrylic permanent adhesive 
Width	1,372 mm (54") 1,524 mm (60")
Lamination compatibility	Ideal on all types of inks; performs extremely well on UV cured inks
Thickness (facefilm)	2.95 mil / 75µ
Examples of Applications	Schools, universities - ideal for use on desktops, filing cabinets, lockers, whiteboards
	Bars, restaurants - weekly specials, menus, counters, scheduling
	Healthcare - in-room boards, nursing station boards
	Customer service communications centers
Benefits	Multi-functional hard-coat surface - white/blackboards laminate, anti-scratch
	High-end quality surface with excellent scratch resistance , ideal for extensive use
	No ghosting , even for longer term writing
	Perfect writing - no pearling effect
	Wiping off permanent markers with isopropyl alcohol wipes doesn't damage the film
	Turns any smooth surface into a dry-erase
	Developed specifically for laminating onto UV cured prints - no silvering
	Can be applied wet where needed (ex. manually) or laminated mechanically
Erasing	Dry-erase / whiteboard markers - any standard cloth
	Liquid chalk markers - any standard wet cloth
	Permanent markers - any cloth with isopropyl alcohol
