

## REMOVABLE VINYL PAINTMASK PROGRADE PAINT MASK

ProGrade™ vinyl paint mask is a specially designed removable film used in making computer-cut stencils for painted graphics. ProGrade™ paint mask can be used for either sign shop or body shop applications, and with either sign lettering enamels or automotive urethane paints. ProGrade™ is a user-friendly adhesive and easy to transfer from the release liner, easy to apply and removes without leaving any adhesive residue behind. Unlike cheaper paint masks, ProGrade™ uses a polymeric vinyl facestock, which is much easier to plotter cut and weed, even when producing paint mask stencils with fine detail.

### Features

Polymeric vinyl facestock  
Removable adhesive

### Benefits

Compatible with either sign lettering enamels or automotive urethane paints  
Easy to apply and remove with no adhesive residue

### Applications

Paint graphics  
Paint mask stencils  
Plotter cut letters and decals

Specialty Tapes

Whether you're screen printing, decorating garments or painting a sign, RTape has the specialty tape to make your job faster, easier and trouble free.

#### Tips and Tricks

On May 5th, Julian "Mr. J" Braet and his wife Linda hosted their third panel jam at Mr. J's Sign Service in Paterson, NJ. More than 100 professional strippers, automotive painters and hot rodders attended. Some of the most talented sign artists on the East Coast striped and painted all day long. [Read more](#)

The Xcaliber Corp. announces a new book by Julian "Mr. J" Braet, entitled "Pinstriping Sketchbook". The book is 8.5"x5.5", and contains over 200 pinstriping designs & ideas created by the world famous "Mr. J". [Read more](#)
