

Vivalux Backlit Latex 125

■ matt 3746 - 125 µm

Matt coated polyester backlit film specifically developed for use with HP Latex inks. In combination with these inks the film allows a very high colour density and brilliance, quick drying and long durability. The printouts are waterproof and suitable for outdoor use. Besides Latex inks, the film can also be used with UV-curable inks.

Applications

- Outdoor signage
- Indoor Backlit
- City Light Posters / Outdoor light box displays

Advantages

- Optimised for HP Latex inks
- Very high colour density and brilliance
- Good durability
- Waterproof

Physical Properties

Thickness	125 µm	ISO 534
Weight	165 g/m ²	ISO 536
Surface	matt	Visual
Opacity	73	ISO 2471

Recommended use and storage

The converting and storage should take place in a climate from 35 to 65% to relative humidity at temperatures of 10 to 30°C. Keep the product in the original packaging (cardboard box and PE bag). It is always recommended that cotton gloves be used when handling InkJet coated materials to avoid fingerprints.

The values provided on this datasheet are only for orientation.

Before using our media please check its compatibility for your printer and intended application. Technical specifications are subject to change, therefore we do not take responsibility for any misprints resulting from technically modified inks and/ or printers. 04.06.2012
