FACT SHEET

Sublimation transfer for excellent sportswear

3793 SubliColor Sports Paper 90

Sublimation transfer paper for elasticized fabrics (stretch) in the field of sports-wear, with a special heat-activated adhesive which allows the transfer to stick to the fabric during the transfer process and is peeled off afterwards. This allows for the protection of the printed image, hindering undesired effects such as ghosting or shrinking of the fabric. This property helps to increase productivity and reduces the rejected textiles to an absolute minimum.

SubliColor Sports Paper 90

Sort	Weight g/m ²	Material
3793	88	Transfer paper for dye sublimation printing

Available sizes (width x length)

- 24" x 328'
- 36" x 328'
- 44" x 328'
- 60" x 328'
- 63" x 328'

Application

- Dye sublimation transfer to sportswear products → elastic fabrics

Product properties

- Adheres to sports fabric for best in class transfer rate with no image ghosting
- High performance and easy handling
- High transfer rates and quick dry
- Intense color with wide color gamut
- Sharp contour definition with soft transmission gradients

Technical data

Material	Adhesive transfer paper for dye sublimation	
Ink compatibility	Aqueous dye sublimation inks	
Surface finish	Matte	
Print side	Out, mirror printing	
Weight	88 g/m ²	ISO 536
Thickness	4.3 mil	ISO 534

Processing and storage tips

- In general, we strongly recommend that all prints are left 24 hours.
- The product should be stored in original packaging at a room temperature of 59°F - 77°F and at a relative humidity of 40 - 60%.
